MATH TASK CARDS

Included in this product are:

- 24 task cards with questions based on the 4th grade math TEKS
- Recording sheet for students to record their answers
- Answer key so that you or the students can check their work

Some ideas for using these cards are:

- Test prep and review
- As a center
- Partner work
- Small group review or activity
- Independent work
- Scavenger hunt
  (My personal favorite-hang the cards in random order all around the room. Students hunt for each card and record their answers.)
- Play a whole class game such as Scoot
- Play Quiz-Quiz-Trade

MATH TASK CARDS

Teacher Instructions:

1. Print product on cardstock for durability
2. Laminate and cut apart individual task cards
3. Copy enough answer sheets for each student to have one.
4. Store in a folder, envelope, sealing bag, or hole punch each card and place them on a ring.

1

The art teacher buys a large box of markers with 152 markers in it. He then evenly divides the markers between four table groups. How many markers does each table group receive?

2

A summer camp is taking its campers on a day trip. They are taking vans that fit 8 campers each. How many vans will they need to transport 27 campers?

3

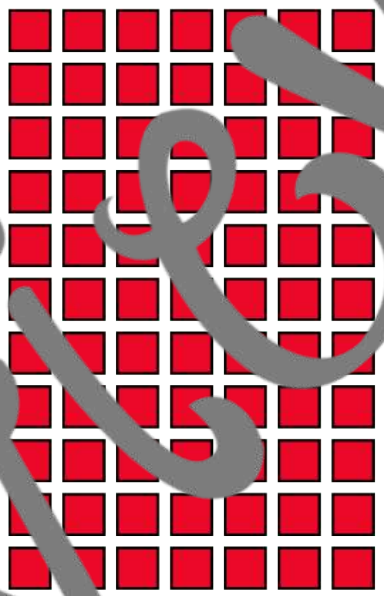
There are 87 flowers in a garden bed. They are planted in rows of 9 flowers each. How many full rows of flowers are there?

4

A bag of beads has 564 beads in it. Josue is making four necklaces with the beads. If he uses the same number of beads on each necklace, how many beads does he use for one necklace?

5

What division facts does the array show?



6

There are 72 pairs of pants for sale at a store. They are hung on three racks with an equal number on each rack. How many pairs of pants are hung on one rack?
